Objective

Aspiring Software Engineer with hands-on experience in software development, cloud deployment, and ML systems. Seeking to apply Computer Science fundamentals and Software engineering skills in a product-focused team.

Education

KLE Technological University

Bachelor of Engineering, Computer Science

Nov 2022 – May 2026

CGPA: 8.46

Skills

- **Languages:** C, C++, Python, SQL.
- **Technologies:** AWS (EC2 & S3), Docker, Jenkins, Git/GitHub, Selenium.
- **AI/ML:** PyTorch, LLMs, Deep Neural Networks, RAG Pipelines.

Work Experience

AI Research Intern

Jan 2026 – May 2026

IIT Dharwad

- **VMHA Dialogue Agent:** Architected a **multi-head dialogue system** on a GPT-2 foundation with parallel prediction heads – Emotion, and Valence-Arousal – producing affectively-aware responses from shared hidden representations.
- Collaborated within a **4-member team** following weekly sprint reviews; and participated in weekly standups with faculty advisors.

Projects

Packet Vision: DDoS Detection with ML | *Python, PyTorch, Docker, ML*

ACM Nexus 2025

- Trained a deep neural network on 85k+ labeled network packets achieving 94% classification accuracy; wrote Selenium-based end-to-end tests validating the detection dashboard UI and containerized the inference pipeline with Docker for portable deployment. [GitHub](#)

ShopSync: Collaborative Shopping App | *DevOps, CI/CD, AWS EC2, Docker*

- Engineered the complete DevOps pipeline for a team-built full-stack app — configured Docker Compose orchestration, set up a Jenkins CI/CD pipeline with Git-based triggers, and deployed on AWS EC2 using Infrastructure as Code, replacing a manual multi-step deployment process with a single push-to-deploy workflow. [GitHub](#)

Graph-Based Route Planner System | *C++, OOP, DSA*

- Engineered a city network simulator with **A***, **BFS**, and **Prim's Algorithm** for real-time route optimization and infrastructure planning across weighted, directed edges.
- Architected **10+ OOP classes** with role-based access control, mutex-protected logging. [GitHub](#)

Achievements

- **Finalist** – HackConclave'24 by IIT Guwahati (2024) | Hack2Future'26 by IIT Dharwad (2026)
- **Google Student Ambassador** (2025) | **Minor Project of the Semester Award** (2025)
- **Best Project Award** – Exploratory Data Analytics Category (2024)

Certifications

- **Machine Learning Specialization** – DeepLearning.ai, Stanford University (2023–2024)
- **DevOps Foundation Certification** – Infosys Springboard (2025)

Extracurricular Activities

- **Chairperson** – ArcStack Tech Club, KLE Tech (2025–26) | **Tech Lead** – KLE CTIE (2024–25)
- **Participant** – 9th Summer School on AI, CVIT IIT Hyderabad (2025)
- **Workshops** – Conducted **technical workshops** for 40+ students and authored internal documentation adopted by the club.
